Cissin secteur 17

PPS Sarl was created in 2010
by Mr Emmanuel Kabore
(Electrotechnical Engineer)
along with other technicians
and engineers in Burkina
Faso.

PPS Sarl Projet Production Solaire

PPS solar photovoltaic department

Projet Production Solaire ensures the supply and setting up of solar photovoltaic and thermal systems for individuals and industry.

Products

PPS's solar photovoltaic products are efficient and economical, they are selected by the research office engineers following rigorous specifications.

- solar photovoltaic pannels
- STECA, VICTRON, SMA converters**
- GRUNDFOS et LORENTZ solar pumps**
- Solar water heaters
- Economical solar public lighting
- Economical lamps

Results

**We work as
partners
100 % client
satisfaction**

LED-based public lighting

- **Increased brightness and energy**
- **50% average savings on the electricity bill**
- **50 000h lifespan ie 13 years for 10 h/day operation**
- **110 W lamppost power rather than the usual 250W**

Place:
Ouagadougou

Since 2010, our company has installed 750 Kwc of solar panels for electrical and pumping systems in Burkina Faso, West Africa.
